

## STANDARD OF QUALITY

At Earth's Finest Stone we are proud to offer our clients a comprehensive collections of natural stone products right from mother natures back yard as well as exquisite manufactured stone veneers that mimic the look and feel of real stone. We understand how important it is for you to find the right product for the right job, that is why we take a hands-on approach with all of our clients right from concept to completion to ensure you are as satisfied at the end of the project as you were the day you first entered our showroom.

Our products have been designed to exceed expectations in all areas. From design to installation, we strive to offer products that are as real to the eye and touch as any of natures great stone formations that grace this beautiful earth. Our products have been used all across Canada and the world from commercial construction to residential housing. We have products for architects, general contractors, home builders, renovation experts, and even the DIY individual. At Earth's Finest Stone we want you to get as excited about natural and manufactured stone as we are, that's why we are continuing to offer great products at competitive prices.

Our products are made and assembled in ISO certified factories which offer the highest in quality manufacturing. Our products have a consistency level which rivals the best in the industry on all key areas. Some of our key advantages are as follows:

1. Product coloration is consistent throughout lot runs.
2. The highest quality dyes and pigments are used to enhance the natural look and coloration of each products.
3. Molds are maintained in the highest standards and replaced at regular manufacturing intervals.
4. A limited lifetime warranty standard with most products.
5. All manufactured products have a UV protectant coating to prevent colour fade.
6. All manufactured products have a weather resistant and water proofing coating.
7. All manufactured products are individually boxed with cardboard dividers separating the pieces.
8. All products conform to all North American standards relative to freeze, thaw, and other criteria
9. Our manufactures have over 30 years of experience in the manufacturing and development of manufactured stone, natural stone and brick veneer products
10. Our product packaging is lighter and easier to handle than that of our competitors ranging from 15lbs to 80lbs per box. Our packaging also offers higher square footage per pallet size that comes shrink wrapped and strapped for your convenience.
